[Great American Cookie Company Nutrition Information](#)

We believe less is more. When you combine fewer, better ingredients, no grain, less sugar, and better fats, you let food shine. These cookies are about feeling the difference that simple, nutritious ingredients make.

We live in a world full of distractions. We can't change that, but we can all find ways to slow down and savor the little moments. It's the small things in life, like sharing smiles, laughter, or even snacks, that make us happiest.

At Lesser Evil, we believe that just a few simple acts can contribute to something great. By sourcing clean ingredients, using better fats, and practicing sustainability, we're able to make the tastiest snacks (and cookies) in the world. It's our small way of making the world a little less evil.

And just like our salty snacks, we own EVERY ingredient, recipe, and process. It's an East Coast kind of Zen.

When wellness guides your spirit, you are your own guru.
